

POWERFUL BUT VERSATILE

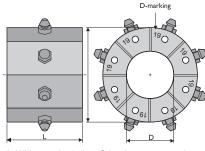

Big brother of the famous FP120 with more force, bigger opening and larger dies. The 140-series die system with adaptor dies makes an excellent choice for large, medium and even small size fittings. Great machine also for medium range industrial hoses.

- With standard dies. Crimping range can be
- increased with special dies.
 Theoretical with 10 mm cycle.
 Hydraulic hose / industrial hose
 Maximum opening is the total die travel. Add
 this value to the minimum crimping diameter
 of the die set used. The result is the maximum opening of the machine with die set in place.
